PROFESSIONAL SUMMARY

Driven student with experience in computing and data science. Strong communicator and team player constantly seeking new opportunities to learn and grow.

EDUCATION

Computer Science (BS)
University of Washington

Expected June 2029
Seattle, Washington

- 3.89/4.0 GPA

High School Diploma
Woodinville High School

- 4.0/4.0 unweighted GPA
- 1550 SAT

June 2026
Woodinville, Washington

WORK EXPERIENCE

Crew Member (Part-Time)
Woodinville, Washington

June 2024– June 2026

- Fully cross-trained front and back of house with significant experience training new employees.
- Maintained strong performance under pressure, serving dozens of customers an hour.
- Ensured compliance with health and restaurant standards.

PROJECTS

Micromobility Trends in Seattle – CSE 163 Final Group Project

July 2025 – August 2025

- Analysis of micromobility (i.e. e-scooters and e-bikes) vehicle collisions data in Seattle, studying correlations to vehicle availability and bike lane access.
- Focused on normalizing vehicle geo-json data to geographic coordinates (lat/long) and correlating available vehicle locations to accident reports.
- Conducted statistical tests for data significance and plotted results using matplotlib
- Shared findings with class through 16-page writeup and video presentation.

TECHNICAL SKILLS

Languages | Python, HTML/CSS/JavaScript, Java, R

Developer Tools | Git, Visual Studio Code, Eclipse, RStudio, Android Studio

Libraries | Pandas, NumPy, Matplotlib, Seaborn
